

APPLIED GEOLOGY

Project Geotechnical Engineer/Engineering Geologist - Warwick

Applied Geology Ltd specialises in the provision of geotechnical and contaminated land ground investigation and related consultancy services throughout the UK. Due to our continued growth and high workload, we are seeking to recruit a full -time Project Geotechnical Engineer/Engineering Geologist to work with our team of Geotechnical Engineers, Engineering Geologists and Environmental Specialists, in our head office in Warwick. You would support the delivery of a diverse range of geotechnical and earthworks projects through a combination of site-based investigation and earthworks support, data review & assessment, factual reporting and technical consultancy work, supporting the Senior Engineers & Technical Director on project work.

The successful candidate will likely have a minimum of 2 years experience in the UK geotechnical investigation and consultancy sector, with experience in either ground investigation or consultancy business environments (preferably both). The candidate should have specific experience in undertaking and supervising ground investigations works and soils and rock logging, scheduling of geotechnical testing, review and assessment of geotechnical test data and preferably an understanding of foundation & earthworks assessment and ground improvement processes. The candidate should have an appropriate geology based first degree and preferably an MSc in a geotechnical related subject (eg Geotechnical Engineering, Engineering Geology, Soil mechanics). A current UK driving licence is required.

This permanent position would be based in our Warwick office and involve a minimum of 37.5 hours per week. A competitive salary, commensurate with qualifications and experience would be offered. Twenty-five days holiday per year (+Bank Holidays), a contributory workplace pension scheme and life insurance cover are also provided. Training and development opportunities will be provided through in-house and external providers to ensure the continued technical and developmental growth of all staff.

Please submit your CV and covering letter either as hard copy or by email to:

Applied Geology Ltd, The Old Barn, Church Farm, Fulbrook Lane, Sherbourne, Warwick CV35 8AR.
